Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund and exchange-traded fund (ETF) investments. Please read the prospectus, Fund or ETF Facts document of the relevant RBC ETF or ETF Series unit of the RBC Fund before investing.

Except as otherwise noted, the indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. The rates of return for periods of less than one year are simple rates of return.

Mutual funds and ETFs are not guaranteed or covered by the Canadian Deposit Insurance Corporation or by any other government deposit insurer. For funds other than money market funds, unit values change frequently. For money market funds, there can be no assurances that the fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment in the fund will be returned to you. Past performance may not be repeated.

ETF units are bought and sold at market price on a stock exchange and brokerage commissions will reduce returns. RBC ETFs do not seek to return any predetermined amount at maturity. Index returns do not represent RBC ETF returns. RBC ETFs are managed by RBC GAM Inc., an indirect wholly-owned subsidiary of Royal Bank of Canada.
